Science workshops

Sports experiences

Lectures and seminars

Newsletter

GLs is an educational program based on earth science and sports medicine, designed to foster curiosity and crisis management skills while deepening understanding of the natural environment and human society.

Environmental awareness

Problem-solving skills

Leadership

Social responsibility

Our Mission

GLs connects sports medicine and earth science in an innovative collaborative project. As a University of Tsukuba spin-off, we partner with communities and industries to nurture the leaders of tomorrow.
